

For example where beds are in a line, beds 1, 3, 5, etc would have their heads on the North or West end of the bed; beds 2, 4, 6, etc would sleep with their heads on the South or East end of the beds.

I hope this makes sense to you.

Thank you again and stay safe!

As you know, we suspended medical copays due to the COVID crisis. Our medical departments have been overwhelmed with requests that are not all related to COVID symptoms. **We will resume our normal copay policy tomorrow, May 1, 2020, except that inmates who submit requests related to COVID symptoms will not be charged.** Note that medical staff will determine if a copay is appropriate, and inmates can use the grievance process if they believe they are inappropriately charged, as always.

People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness.

Symptoms may appear **2-14 days after exposure to the virus.** People with these symptoms or combinations of symptoms may have COVID-19:

- Cough
- Shortness of breath or difficulty breathing

Or at least two of these symptoms:

- Fever
- Chills
- Repeated shaking with chills

- Muscle pain
- Headache
- Sore throat
- New loss of taste or smell

Thank you all for continuing to serve our Department and our State, and please stay safe!
